

VALUE AND APPLICATION OF 3D ANORECTAL ULTRASOUND

We are pleased to invite colorectal surgeons from all over the world to our webinar: Value and Application of 3D Anorectal Ultrasound. Participants will receive peer-to-peer insights and learn the clinical benefits of using 3D ultrasound for planning colorectal surgery. There will be talks, real case examples, and the opportunity to ask questions during a Q&A session. Register today!

Date/Time:  *December 3, 2020. 8:00 am – 10:00 am (CET)*
 *December 3, 2020. 7:00 pm – 9:00 pm (CET)*

Agenda: *Value and Application of 3D Anorectal Ultrasound*

Speaker:

- *Basic physics of ultrasound* **Dr. Kowallik**
- *Transducers, advantages, and challenges* **Dr. Kowallik**
- *Anatomy of the anal canal: Normal anatomy and pathology* **Dr. Kowallik**
- *Landmarks in rectal vs. anal ultrasound* **Dr. Kowallik**
- *Transducer positioning during the examination* **Dr. Kowallik**
- *Rectal anatomy and pathology* **Dr. Kowallik**
- *Rectal ultrasound: Transducer preparation, water standoff system, pitfalls, artefacts in tumor diagnosis* **Dr. Kowallik**
- *Q&A*

Clinical Lecturer:  **Dr. Martin Kowallik**, MD Surgery/Proctology, Magen Darm Zentrum Wiener Platz, Cologne, Germany
